PX Series Structural Fire Helmet

Contemporary Style. Heavy Duty.

PX Series fire helmets are designed Bullard Tough for extreme conditions. With a low center of gravity for superior balance, PX fire helmets incorporate recommendations from veteran fire professionals from around the world. Choose the PX for proven on-the-job performance and long-lasting durability.

Contemporary Styling
The sleek design of the PX Fire Helmet offers lightweight comfort and a low center of gravity. This is vital to providing a stable and comfortable fit in the uncertain environment of a fire scene. The easy-turn ratchet sizing and leather ratchet cover increases overall comfort and security.

Tough and Durable Thermoplastic
The outer shell of the PX is made of a high-heat thermoplastic, formulated especially for Bullard. This material provides greater impact and penetration resistance than fiberglass and resists degradation better after repeated high-heat exposures. PX helmets have color pigment molded throughout the outer shell, so nicks and chips are less visible.

NFPA Approved

Molded Inner Liner Impact Cap System
PX helmets include a molded inner liner impact cap system that provides superior durability, resistance to heat, and thermal rise protection. It also keeps the helmet shell secure and stable, and the molded goggle grommets allow for greater goggle comfort, support, and performance.

Online Leather Front Ordering
Personalized leather front ordering has never been easier! Design your own leather front, right online at www.BuildYourBullard.com.

Cost-Effective Maintenance
PX helmets are designed from the start to make maintenance easy and cost-effective. Fewer components and one of the lowest total costs of ownership in the industry will truly make your PX helmet a long-term investment. Plus, special mold-formed faceshields mean less stress cracking and longer lasting faceshields.

Integrated Helmet Lighting Available
The PX Fire Helmet is available with Bullard TrakLite® helmet lighting. Featuring multiple forward-facing, long lasting, bright LED lights, TrakLite is integrated into the helmet design for excellent weight balance and illumination. Added safety features include the rear buddy indicator light, long battery life (uses four AAA batteries) and easy on/off operation.

Quick, Easy Sizing
The PX is designed for exceptional balance, comfort, stability and interface with SCBA equipment. The Bullard Sure-Lock® ratchet headband offers both easy-turn ratchet sizing and a unique three-position height adjuster to create a completely personalized fit. The PX helmet is equipped standard with a leather ratchet cover.

Custom Comfort
All Bullard fire helmets are equipped with the U-Fit System, offering 12 custom comfort settings. By engineering our helmets to include 12 points of adjustment, you can adjust the ride and balance of your helmet. It’s like having a custom-fitted helmet, designed just for you.

Maximum Visibility
PX helmets feature Scotchlite® striping, which retains reflectivity to 500°F (260°C). This makes Scotchlite the toughest material available for helmet markings. PX helmets also feature the unique R330 optically-correct faceshield. The R330 eliminates distortion found in some faceshields and reduces eye stress and fatigue.
Technical Specifications

Dimensions: 14"L x 12"W x 7"H
Outer Shell Material: Thermoplastic
Inner Shell Material: Non-CFC Urethane foam
Suspension: 6-point with soft crown pad
Warranty: Date of Manufacture; five (5) years on shell, 10 years on non-electronic components

1. Nomex® ear cover
   Nomex is a heat and flame resistant fabric made by DuPont. Provides premium protection in high heat situations.

2. Chinstrap with postman’s slide
   Easy to adjust and secure.

3. Sure-Lock® ratchet headband with comfort brow pad
   (leather brow pad optional):
   Sure-Lock is the top performing ratchet headband, made exclusively by Bullard. Comfort brow pad is removable and washable or replaceable.

4. Scotchlite® reflective markings
   Highest quality reflective material available; retains reflectivity to 500º F (260º C). No burning, cracking or peeling.

5. Stainless steel D-ring
   Large, durable D-ring allows you to hang your helmet on virtually any size hook.

6. Crown straps with crown pad
   Comfortable 6-point suspension system with soft crown pad that provides an extra level of comfort while wearing the helmet.

7. Three position ratchet height adjuster
   (not shown)
   The height adjuster is the base of our 12-point comfort system. Adjust to ride high, low, or somewhere in the middle for a custom fit.

8. TrakLite® Integrated Lighting
   (not shown)
   Available with Bullard TrakLite helmet lighting. Featuring multiple forward-facing, long lasting, bright LED lights, TrakLite is integrated into the helmet design for excellent weight balance and illumination. Added safety features include the rear buddy indicator light, long battery life (uses four AAA batteries) and easy on/off operation. Select models can also be retrofitted to include TrakLite.

Thermoplastic outer shell
The PX outer shell has color pigment molded throughout the shell. It offers a tough Ultem® Thermoplastic shell offering the ultimate in impact and penetration resistance.

M-PACT Plus Molded Inner Liner System
Protects head against heat rise and provides an extra layer of protection against falling objects.

4” optically correct faceshield
Optically correct faceshield eliminates distortion and reduces eye stress and fatigue.

PX Firedome Helmet NFPA 1971-2013
- Ultem® Thermoplastic outer shell
- Urethane impact liner (R921)
- Black high-heat thermoplastic inner shell (R921)
- Sure-Lock ratchet headband and 6-point nylon crown strap (R637)
- Nomex chinstrap with quick-release buckle and postman’s slide fastener (R144)
- Black rip-stop Nomex ear/neck protector (R721)
- 4” hard-coated optically correct faceshield (R330)
- Leather ratchet cover (R160)
- Removable fire resistant cotton brow pad (R635)
- Cotton crown pad (R636)
- Scotchlite reflective striping (R533)

Options at no additional charge:
- R325 6” Faceshield
- Red-Orange Reflective Scotchlite Striping
- R721YLW Yellow Nomex Ear/Neck Protector

PX Colors:
- black
- red
- white
- blue
- orange
- lime-yellow

PXG Firedome Helmet NFPA 1971-2013
- Same as PX, except with ESS FirePro or Inner Zone Goggles instead of faceshield
  (additional charges may apply)

PXA1 Firedome Helmet NFPA 1971-2013
- Same as PX, except without postman’s slide and ratchet cover.
