USRX
Fire & Rescue Helmet

Dual Certification. Lightweight Design.

USRX rescue helmets are designed Bullard Tough for extreme search and rescue conditions. Using the latest in engineering advancements, Bullard has developed the most comfortable low profile helmet on the market.

Dual Certification
This versatile helmet incorporates recommendations from USAR teams and other fire and rescue professionals. The result is an integrated assembly of advanced materials and quality components that provide superior head protection, comfort, and proven long-lasting durability.

The USRX helmet is certified to both structural fire and rescue NFPA standards.

- NFPA 1951-2013: Standard for Urban Search and Rescue
- NFPA 1971-2013: Standard for Structural and Proximity Fire Fighting

Bullard Tough
With the re-engineered USRX Series Rescue Helmet, you’ll find more headroom than ever before. This advanced, lightweight thermoplastic helmet eliminates excess weight, reducing the stress and fatigue associated with bulkier helmets, without sacrificing protection.

Engineered for Comfort and Protection
The Bullard patented M-PACT Shell with SmartRidge design provides thermal and impact protection while offering more headroom for a comfortable fit.

Quick, Easy Sizing
The Bullard Sure-Lock® ratchet headband offers both a quick-turn of the knob and a new, unique three-position height adjuster for balance and comfort. The USRX is standard equipped with leather covered ratchet and a three-point chinstrap.

Quick-Attach Eye Protection for Flexibility
Bullard USRX Series helmets come standard with the all-new and innovative Quick-Attach Blade System. This system permits the wearer to simply press on or off either a blade-mounted faceshield or blade-mounted goggle in seconds: no tools required. This flexibility gives the wearer the advantage of the right option for the right application without time consuming component changes. The USRX comes with ESS goggles or faceshield.

Cost-Effective Maintenance
USRX helmets are designed from the start to make maintenance simple and cost effective. Fewer components, and the greatest cost effectiveness in the industry, enhance your long-term investment. Plus, special mold-formed faceshields mean less stress cracking and longer lasting faceshields.

A Custom Fit
All Bullard fire helmets are equipped with the U-Fit System, offering 12 custom comfort settings. By engineering our helmets to include 12 points of adjustment, you can adjust the ride and balance of your helmet. It’s like having a custom-fitted helmet, designed just for you.
USRX Fire & Rescue Helmet

Thermoplastic outer shell
A specially formulated advanced color-through thermoplastic shell with the ultimate in impact and penetration resistance.

M-PACT Shell
Superior protection is provided by Bullard’s patented M-PACT shell with SmartRidge design, providing increased protection while remaining lightweight.

Quick-Attach blade system
The easiest way to quickly change out face protection, offered exclusively by Bullard.

Technical Specifications
Dimensions: 11.5"L x 11.6"W x 6.5"H
Outer Shell Material: Thermoplastic
Inner Shell Material: Nylon Impact Cap
Suspension: 4-point nylon crown strap
Warranty: Date of Manufacture; five (5) years on shell, 10 years on non-electronic components

ESS goggles or optically-correct 4-inch faceshield
Industry-leading eye protection.

Nomex ear/neck protector
Provides premium protection in high heat situations.

Three-point chinstrap with postman’s slide:
Easy to adjust and secure.

Sure-Lock ratchet headband
Sure-Lock is the top performing ratchet headband, made exclusively by Bullard.

Stainless steel D-ring
Large, durable D-ring allows you to hang your helmet on virtually any size hook.

Scotchlite® reflective striping
Highest quality reflective material available; retains reflectivity to 500° F (260° C). No burning, cracking or peeling.

Optional decals
Customize your helmet with Bullard decals.

Options at no additional charge:
• Red-Orange Reflective Striping
• R721YLW Yellow Nomex Ear/Neck Protector

USRX Rescue Helmet NFPA 1951-2013 and NFPA 1971-2013

Urban Search and Rescue Helmet
• Inner crown system (R929)
• Standard headband with brow pad
